OBJECTIVE 1

A special program of advisement developed for new students, which will give students an opportunity to complete their registration for classes and the registration process.

RESULTS

Students on the Main Campus and at External Sites continue to rate “guidance from my academic advisor” and “overall advisement and registration process” in the top 25% of positive responses generated through student surveys. The ratings on Main Campus were 4.73 and 4.88 respectively and 4.58 and 4.79 at External Sites on a scale of 6.0.

RESPONSE

Since responses were less positive than last year, there is indication we still need to improve in some areas. We have already begun this process by instituting “rolling registration” during the summer term. We will continue to seek ways to improve student satisfaction.

Guidance from my academic advisor	83% (98 of 118)
Advisor knowledgeable of my degree requirements	87% (100 of 115)
Advisor answered the questions that I had	86% (101 of 117)

Experience registering for classes	83% (101 of 122)
Overall advisement and registration process	81% (99 of 122)

OBJECTIVE 2

Provide an efficient and accurate program of advisement for all students within a nurturing Christian environment.

RESULTS

On the Mt. Vernon Campus Student Survey, “effective” or “very effective” was determined to be equivalent to numbers 4-6 on a scale of 1-6. Of the students responding to the six questions pertaining to academic advising, the following results were achieved:

1. Guidance from my academic advisor	4.53
2. Advisor knowledgeable of my degree requirements	4.72
3. Advisor answered the questions I had	4.71
4. Advisor knowledgeable of registration process	4.78
5. Experience registering for classes	4.57
6. Overall advisement and registration process	4.57

RESPONSE

Continue program of advisement and seek to improve student experience. During the Summer 2004 term, we are experimenting with various methods to reduce the time lag, for the student, between advisement and advisor approval for on-line registration during times when advisors may not be present. This is necessary due to extending the registration “window” during times when faculty are not required to be on campus. We are asking faculty advisor peers to approve schedules for those advisors not present. At times, the Director of Advising is authorized to approve schedules and then notify advisor of action when advisor returns. Goal for approval of schedules after student inputs it on-line, is 3-7 days.

RESULTS

On the Student Survey, “effective” or “very effective” was determined to be equivalent to numbers 4-6 on a scale of 1-6. The following are results from the latest survey.

|--|-----------|---------------|
| 1. Guidance from my academic advisor | Main 4.64 | External 4.68 |

| 5. Experience registering for classes | Main 4.83 | External 4.87 |
| 6. Overall advisement and registration process | Main 4.77 | External 4.74 |

RESPONSE

Continue program of advisement, still seeking to improve student experience. Continue to work on advisement and registration process for periods when faculty advisors are absent from campus. The Director of Advising has been given additional authority to expedite advising and registration during these times. Actions of the Director of Advising will be subject to faculty advisor approval.

RESPONSE

Continue advisement program and “fine tune” to continue to improve student experience. The additional authority given to the Director of Advising to facilitate advisement and registration during periods of advisee absence needs to be broadened somewhat to decrease student irritation at not being able to contact advisor.

RESPONSE

Since all but one response is somewhat less positive than last year, there is indication we need to continue improving the advising/registration experience. The advising process seems to work well, but there is still some frustration from students over the unavailability of advisors during the summer term. We need to encourage students to seek advisement while their advisors are still on campus, since advisors should not be expected to be “on call” during their “downtime”.
