Foreign Language

0-6 hours

Hours must be in a single language.

Eligibility to enroll in foreign language 101 and 102 is determined by the student's background in foreign language. Students with two years of high school foreign language credits within the past three years, who elect to take the same language in college, must begin their college foreign language studies at the 102 level. They are not allowed to enroll in 101. Students may begin at a higher level than that recommended with permission of the instructor.

Heritage speakers who have earned high school foreign language credits within the last three years are subject to the same regulations. Others who have knowledge of foreign language through life experience may also be evaluated for advanced placement.

TOTAL HOURS OF CORE CURRICULUM: 47-65 HOURS
