ADD-ON CERTIFICATION/ALTERNATIVE CERTIFICATION

For persons with college degrees who desire to become certified to teach in a field in which they do not have certification, there are two types of certification available. The number of hours required will be determined by previous coursework. Evaluation of transcript(s) determines courses and hours required.

Add-On Certification

A person with certification in one field of education may add certification in another field. The number of hours required will be determined by credit earned in the original certification area.

Alternative Certification

A person with a degree in any discipline for which teacher certification may be obtained and for which Brewton-Parker College is approved may complete the alternative certification program outlined below.

All persons desiring certification must be admitted to the Teacher Education Program and meet all requirements of that program as stated in the Teacher Education Handbook.
